## **BAZEPORT ENTERTAINMENT OVERVIEW**

160156BazePort Entertainment is the library of all your Movies, Series, Recordings, Podcasts and News available in your BazePort installation. From the Entertainment section in BazePort Management Studio you can manage the content in Movies, Series,

Recordings, Podcasts and News.

#### **ABOUT MOVIES**

**Movies** is the Video on Demand library of all the movies in your installation. The movies may contain BazePort Content Service subscription to Premium or Basic content package provided by Baze Technology, and movies you have uploaded to the library yourself. From Movies you can search and edit movies' metadata, it is possible to include movies' metadata in many languages. You can upload and delete your own movies.

#### **ABOUT SERIES**

**Series** is the Video on Demand library of all the series in your installation. The series may contain BazePort Content Service subscription to Premium or Basic content package provided by Baze Technology, and series you have uploaded to the library yourself. From Series you can search and edit series' season and episode metadata, it is possible to include series' metadata in many languages. You can upload and delete your own series.

#### **ABOUT RECORDINGS**

**Recordings** is the library of all TV programs recorded in the installation. Recordings can be initiated by a user, recording program by program, or through the Catch-up functionality where a TV channel is set up to record and keep recordings for a specific number of hours. From **Recordings**, the administrator can view all recordings and delete recordings to free up disk space on the server.

#### **ABOUT PODCAST**

**Podcast** is the library of all Podcasts available in the installation. The administrator can set up new podcast subscriptions and manage existing podcasts and podcast episodes from here.

#### **ABOUT NEWS**

**News** is the library of all news service subscriptions provided by Baze Technology through BazePort Content Service. The news service you subscribe to may be available in several languages, and the administrator can select which languages the installation shall have access to, and how many news episodes or days to keep before automatic removal. The administrator can edit news metadata, delete whole news subscriptions, delete episodes in transfer queue from BazePort Content Services, or delete single episodes.

Getting started - Access to the Entertainment administration tool

## bazepurt

## **GETTING STARTED**

#### **ACCESS TO THE ENTERTAINMENT ADMINISTRATION TOOL**

To access **BazePort Management Studio – Entertainment**, simply browse to <u>http://bazeportsrv.bazeport.lan/BazePort.ManagementStudio/</u> with your favorite browser.

Please note that your computer must be connected to the same network/VLAN as the BazePort Server.

#### LOGIN

When prompted you will have to login with supplied credentials, see the login dialogue in the picture below.

bazepurt
Username
Password
Remember me
Sign in
Guest login

After login you will be presented with the **BazePort Management Studio** application. The initial window gives a quick general overview of the system status of the BazePort system. The **Entertainment** section is found in the menu on the left-hand side by navigating a level up, choosing the **Configure** menu item.

	bazep	ourt
	Search	
<	Configure	
	System Status	
Ţ	STB Manager	>
عر	Settings	>
Þ	Channel Manager	

🚓 BazePort 🗸 💄 administrator 🗸

?

#### FUNCTIONALITY AVAILABLE FROM THE UPPER BAR

#### ■ bazeport

Please note the following on the upper bar:

- Choose BazePort installation: from the network icon on the right side, you have the possibility to
  choose which BazePort installation to log into. This is relevant only if you have more than one BazePort
  installation to administer.
- Language: From the user icon on the right side, you have the option to change language for BazePort Management Studio.
- **Logout**: From the user icon on the right side, you have the option to log out of BazePort Management Studio.
- **Help**: From the question mark icon to the far right you can access user manuals for all BazePort Management Studio modules and user manuals for the BazePort units.
- Expand and collapse the menu tree by clicking the icon on the far left side.

#### SEARCH

The **Search** field on the top left-hand side menu is available for all parts of **BazePort Management Studio**. This makes it possible to search through the menu names for easier access to sub menus.

	bazeport			🖶 BazeP	ort <del>-</del>	administrator -	?
	Şearch	System Status Dashboard					
<	Configure System Status	Server		Set-Top Box			
Q	STB Manager >	Current BazePort version	8.0 21/21	Status Online:	7	Versions 8.0.0: 8.0.4161431:	97 2
¥	Settings >	Channels streaming	33/33	Standby: Offline:	16 72		
Þ	Channel Manager			Unregistered:	4		

When you start typing letters in the field, the menus containing these letters will automatically show in a list (providing you have been granted access to them). The list of menu items is presented with the menu it is organized under.

For quick access, select the application you are interested in, and this will open on the right-hand side of the screen.

## MOVIES

Movies is available from the main menu choosing Entertainment, then Movies. Movies is where you manage your movie library. The movies may contain BazePort Content Service subscription to Premium or Basic content package provided by Baze Technology, and movies you have uploaded to the library yourself.

Please note that this application requires extra hardware and BazePort VOD licenses that may not be part of your installation. Upload of your own movies requires an extra licence in addition to BazePort VOD licenses. If you do not subscribe to **BazePort Content Service Premium or Basic content package**, this library contains only the movies you have uploaded yourself.

#### PANEL VIEWS AND SEARCH

#### PANEL VIEWS

The movie library can be presented as a grid or a list, and can be sorted by title or date. The view settings are located in the top left just below the page header: **Movies**.

Search Movies	
	± Ubload

To change the sorting, click the current sorting option to display the drop down menu and click the preferred option.

**Movies** has two view settings: **Grid** and **List**. The screenshots below display the **List** view to the left and the **Grid** view to the right. By clicking the current view option, you can change to the other view.

Movies Order by: Date added - View: List	<b>≛</b> Upload
Search	
Jumanji: Welcome to the Jungle	2
Interstellar	2
Bohemian Rhapsody	2
The Lego Movie 2: The Second Part	2

#### SEARCH

To search for a movie, click the search field below the sorting options. The search result below will show the matched movie titles as you type. Search result will also match parts of the title, so searching for "te" will show the results: *Interstellar, Pokémon Detective Pikachu* and *Sintel.*  Movies - Delete movies

## bazepurt

#### **DELETE MOVIES**

#### Delete is available from the Delete button

Î.

Movies Order by: Date added ~ View: List	<b>≛</b> Upload
Search	
Jumanji: Welcome to the Jungle	2
Interstellar	2
Bohemian Rhapsody	2
The Lego Movie 2: The Second Part	2

In the list view, the buttons are located to the right of each movie title.

In the grid view these buttons can be found at the top of the movie cover by hovering the mouse pointer over the cover, see buttons for the movie "Bohemian Rhapsody".

To delete a movie, click its **Delete** button. This will trigger a warning dialog box. To confirm deletion of the movie, click the **Delete** button.

Delete?		
Do you really want to delete this item? This cannot be undone!		
	Delete	Cancel

#### **EDIT MOVIES**

Edit is available from the Edit button

Movies Order by: Date added - View: List	<b>≛</b> Upload
Search	
Jumanji: Welcome to the Jungle	2
Interstellar	2
Bohemian Rhapsody	2
The Lego Movie 2: The Second Part	2

In the list view, the buttons are located to the right of each movie title.

In the grid view, these buttons can be found at the top of the movie cover by hovering the mouse pointer over the cover, see buttons for the movie *Bohemian Rhapsody*.

If the Edit button is clicked, the Edit movie dialog box will open.

#### EDIT MOVIE DATA DIRECTLY

Most of the properties shown here can be edited directly by clicking the respective text and start typing. The exception is *Genres* where you get a drop down list of genres to choose from. To remove a genre from a movie, click the X next to it.

#### EDIT MOVIE DATA BY FETCHING DATA ONLINE

The **Movie title** field has a built in search feature. As you type, a list of movies matching the text will appear below the text field.

By clicking one of the titles, movie data is fetched from **The Movie Database (tMDB)** and replaces the existing data including the cover and backdrop images. Clicking the magic wand button on the right will search **tMDB** for the text already in the title field and display a similar list to pick from.

By clicking either of these, the movie will also have a **tMDB** reference for fetching translation of the title and description later.

To remove the reference to **tMDB**, click the left button of the two buttons to the right in the picture, as shown in the screenshot below. To refresh the data from the connected **tMDB** movie, click the button to the right.

#### **REPLACING MOVIE COVER**

The cover image and the backdrop image can both be replaced. Hover the mouse pointer over either the cover or the backdrop image to reveal the **Upload** button. Click the button and pick images from your computer to replace the current image.

#### ADD TRANSLATIONS

To add a translation, click the **+-**tab next to the default tab.

The languages in this list are configured in the system setting **Content languages**, available from the **Configure** module, **Settings** menu, **System settings** menu.

Click the desired language to add a translation. If the movie has a **tMDB** connection (see description for connecting movie on page 11), the system will try to fetch a translated title and description.

To remove a translation, click the **X** next to the language tab. To fetch metadata from the connected **tMDB** movie, click the refresh button to the right of the movie title. If this button is not present, try connecting a movie from the default tab.

Remember to save your changes.

#### **UPLOAD YOUR OWN MOVIES**

It is possible to upload your own movies to the Movies library.

To upload a movie, click the **Upload** button in the top right hand corner of the page, and select video files from your computer.

Select the movies you want to upload. You can select multiple movies.

Note that the name of the file can be used to help you with movie data in the library.

## Please note Copyright is your responsibility Please carefully note that you are solely responsible for holding the correct licenses to store and make copyrighted material available at your venue. Baze Technology will not accept any copyright claims or otherwise engage in any copyright legal dispute on behalf of BazePort IPTV system's users. Baze Technology can offer subscriptions for copyrighted material licensed for your venue.

#### The file name will be used to fetch movie data from tMDB.

Upload movies Show: All

#### After all movies are uploaded, the dialog box will close and you will return to the updated movie library.

### SERIES

Series is available from the main menu choosing Entertainment, then Series. Series is where you manage your series library. The series may contain BazePort Content Service subscription to Premium or Basic content package provided by Baze Technology, and series you have uploaded to the library yourself.

A series is divided into episodes. A series may also have one or more seasons, where each season consists of a number of episodes.

Please note that this application requires extra hardware and BazePort VOD licenses and may not be part of your installation. Upload of your own series requires an extra BazePort licence in addition to BazePort VOD licenses. If you do not subscribe to BazePort Content Service Premium or Basic content package this library contains only series you have uploaded yourself.

#### PANEL VIEWS AND SEARCH

#### PANEL VIEWS

The series library can be presented as **Grid** or **List**, and sorted by *Title* or *Date*. The **View** settings are located in the top left just below the page header: **Series**.

The screenshot below displays the Grid view.

The screenshot below displays the **List** view. By clicking the current **View** option, the setting will change to the other.

	5 Dead Freight	
	Save	Cancel

#### EDIT SERIES DATA BY FETCHING DATA ONLINE

The series **Title** field has a built in search feature. As you type, a list of series matching the text will appear below the text field.

By clicking one of the titles, movie data is fetched from **The Movie Database** (tMDB) and replaces the existing series data including the cover, backdrop image and episode information. Clicking the magic wand button on the right will search tMDB for the text already in the title field and display a similar list to pick from.

By clicking either of these, the series will also have a **tMDB reference** for fetching translation of the title, and description and episode information later.

To remove the reference to **tMDB**, click the left button of the two buttons to the right in the picture, as shown in the screenshot.

To refresh the data from the connected **tMDB** series, click the button to the right. It is also possible to refresh data for a single season by clicking the refresh button next to the season header.

#### ADDING TRANSLATIONS

To add a translation, click the +-tab next to the default tab.

The languages in this list are configured in the system setting **Content languages**, available from the **Configure** module, **Settings** menu, **System settings** menu.

Click the desired language to add a translation. If the series has a **tMDB** connection (see description for fetching data in previous chapter *Movies – Edit movies - Edit Movie data by fetching data online) –* the system will try to fetch a translated series title, description and episode data.

#### **REMOVING TRANSLATIONS**

To remove a translation, click the **X** next to the language tab. To fetch metadata from the connected **tMDB** series, click the refresh button to the right of the series title. If this button is not present, try connecting a series from the default tab. It's also possible to fetch data for a single season by clicking the refresh button to the right of the season header.

Remember to save your changes.

#### **DELETE A SEASON OR EPISODE**

#### DELETE SEASON

To delete an entire season, click the **Delete** button at the right hand side of the season header.

#### DELETE EPISODE

Hover the mouse pointer over an episode in the episodes list to reveal the **Edit** and **Delete** buttons for the episode. Click the **Delete** button to delete the episode.

#### **UPLOAD YOUR OWN SERIES AND EPISODES**

It is possible to upload your own series to the Series library.

#### UPLOAD EPISODES TO ONE SERIES

## RECORDINGS

**Recordings** is available from the main menu choosing **Entertainment**, then **Recordings**. **Recordings** is the library of all TV programs recorded in the installation. **Recordings** can originate from a user recording of a TV program, or from automatic recordings through the Catch-up TV. The Catch-up TV's functionality is where a TV channel is set up to record and keep recordings for a specific number of hours. From **Recordings**, the administrator can view all recordings and delete recordings to free disk space on the server.

Please note that this application requires extra hardware and BazePort nPVR licenses that may not be part of your installation. In addition, Catch-up functionality requires add-on license to BazePort nPVR license.

#### **PANEL VIEWS**

The recordings list can be grouped by either channel or program title. To change grouping, click the drop down menu located below the recordings page header.

#### SELECTING AND DELETING PROGRAMS

Select the programs you would like to delete. By clicking a group, either a channel or program title depending on the current **Grouped by**-setting, all the elements in that group will become visible.

For every podcast selected, it's possible to set if previous episodes should be downloaded and if episodes that are already downloaded should be automatically deleted.

To download previous episodes, tick the checkbox next to the label **Get previous episodes**. This will reveal options for **Limit type** set to *Quantity* with the default value set to 10 episodes. When clicking the **Save** button at the bottom of the dialogue box, the subscription will be added and the 10 latest episodes will be downloaded. Topic:

Auto delete									
Auto delete									
BBC Indonesia									
Business Daily									

To set up auto delete for a podcast, tick the checkbox next to the **Auto delete** label to reveal the auto delete options. The **Limit type** is set to *Quantity* and to keep the 10 latest episodes by default. When the number of episodes exceed the value set here, the oldest episode will be deleted.

Setting the **Limit type** to *Date limit* will replace the *Quantity* with a calendar. By default this is set one month back in time, but you can set this to any date in the past by clicking a date in the past. When clicking the **Save** button at the bottom of the dialogue box, the subscription will be added and all episodes published from the selected date will be downloaded.

#### MANAGE PODCAST EPISODES

To manage the episodes for a podcast, select a podcast in the left column and click the episodes tab in the right column.

In this list it is possible to manually queue episodes for download, to remove episodes from the download queue, or to delete episodes that are already downloaded.

Episodes marked with icon to the left of the episode title are queued for download. They can be removed from the queue by clicking the button on the right. To add an episode to the download queue, click the ibutton. Episodes already downloaded will be marked with icon to the left of the episode title. They can be

deleted by clicking the **button** to the right.

#### NEWS

**News** is available from the main menu choosing **Entertainment**, then **News**. **News** is the library of all news service subscriptions provided through **BazePort Content Service** by **Baze Technology**.

To download previous episodes, tick the checkbox next to the label Get previous episodes. This will reveal options for Limit type set to Quantity with the default value set to 10 episodes. When clicking the Save button at the bottom of the dialog box, the subscription will be added and the 10 latest episodes will be downloaded.

Setting the Limit type to Date limit will replace the Quantity with a calendar. By default, this is set one month back in time, but you can set this to any date in the past by clicking a date in the past. When clicking the **Save** button at the bottom of the dialog box, the subscription will be added and all episodes published from the selected date will be downloaded.

When clicking the Save button, the selected news source will be added to the news source list.

#### EDIT AND DELETE NEWS SOURCES

When subscribing to news sources, the title, a short description and a longer description are fetched. These can be edited by right clicking the news source in the left column to reveal the menu, or by clicking the **Edit** button on the right hand side of the title in the right column. To unsubscribe, select the **Delete** option in the menu.
